

## **College History:**

Started in 2008 with require common people, social workers, the college has been serving the most deprived sections of this part of the district. With meagre infrastructure facilities the college has been excelling in its responsibility in the furtherance of higher education in this backward area of the state of A.P. Most of the students come from very poor rural background belonging to the highly deprived, marginalized sections of the society, namely, SC, BC, Minority communities. The College has running in the present Govt. Junior College Premises, Cumbum.

The college was established with the motto of providing quality higher education to this part of the district which had been deprived of higher educational opportunities. The vision and mission statements of the college reflect our resolve to assiduously strive to reach that objective on a continuous basis.
